

Asbestos Record of Notification

The following is the yearly notification to be given to patrons and school constituents regarding the ACBM in your school. You may wish to do this at the time of registration or with monthly billings. Some prefer to print in the yearly bulletin.

“The Federal law requires a public announcement to be given to school patrons regarding any asbestos material in your school. Your school facility has been check by a certified asbestos person. The report is in the school file. This document is available for those wishing to see it. The asbestos in the school is in a non-friable condition and presents no hazard to anyone at the present time. It will be checked at stated periodic intervals to ascertain any change in the material.”
